

Never miss what matters. Know what to do next.

AI-powered command center that unifies school communications across all your kids, schools, and apps — email, Spider, Parent Pay, SIMS — into one prioritized action dashboard.

50–200

school messages per child / month

5+

apps per school (fragmented)

37%

parents miss a deadline each term

THE PROBLEM

- Trip payments buried in newsletters — children excluded from events
- Homework deadlines scattered across Spider, email, and SIMS
- Multi-child households: wrong child, wrong payment, wrong form
- No single view of urgency across schools and apps

PRODUCT (LIVE PROTOTYPE)

- AI-ranked "Today" action queue with priority scores
- Action cards: Pay, Register, Sign, Complete homework
- Filter by child and type (payments, homework, events)
- Connected sources: Gmail, Spider, Parent Pay, SIMS

MARKET

SEGMENT	SIZE
UK households (school-age)	~8M
US households (expansion)	~35M
Year 3 SOM target	50K families → £6M ARR

12-MONTH ROADMAP

- **Q3:** Gmail integration + 30 beta families
- **Q4:** Parent Pay + Spider email parsing
- **Q1:** 500 paying families, ML priority v2
- **Q2:** Mobile app + 1 school partnership

OUR SOLUTION

- **Unified ingestion** — connect all school communication channels
- **AI extraction** — LLM parses deadlines, payments, registrations
- **Smart prioritization** — ML ranks what needs attention now
- **Child filters** — one dashboard, every kid, every school

BUSINESS MODEL

TIER	PRICE	INCLUDES
Free	£0	1 child, email, weekly digest
Family	£9.99/mo	Unlimited kids, all connectors, AI priority
Annual	£79/yr	34% discount, higher LTV

Year 2 B2B2C: school licenses £2–5/pupil/year

WHY WE WIN

	SCHOOL APPS	NINJAPARENT
Multi-school / multi-child	✗	✓
AI prioritization	✗	✓
Parent-centric UX	✗	✓

Moat: Parent behavior data + cross-school graph → better prioritization over time

TRACTION TODAY

- Working interactive prototype deployed live
- AI extraction pipeline designed
- 15 parent discovery interviews planned
- Investor demo video + pitch deck ready
